CAREER OBJECTIVE

Aspiring web and software developer passionate about leveraging advanced technologies to address real-world challenges. Eager to apply and expand my skills through an internship, contributing to innovative projects and gaining hands-on experience in the field.

INTERNSHIP EXPERIENCE

Dot Net using C Sharp

July 2023 – Aug 2023

SchemaxTech

Vishakapatnam

- Completed an internship at SchemaxTech, gaining hands-on experience with developing window based applications using C-Sharp and beginner on ASP.NET.

Bharat Intern

Dec 2023 – Jan2024

Virtual Internship program at Bharat Intern in Full Stack Web Development

- Demonstrated full-stack development skills by building a Blog website and a Student Registration System using React, Node.js, and MongoDB, highlighting proficiency in frontend and backend technologies, database integration, user interface design, and strong self-learning and task management capabilities.

SKILLS

Programming Languages: C, Python, Java, MySql

Frontend Web Technologies: Html,css,javascript

Backend Web Technologies: php,Nodejs

Frameworks: Flask,Reactjs

Soft Skills: Problem-solving, Adaptability, Good Communication,Time Management

PROJECTS

A Web Based System for Community Driven Water Issue Detection

May 2024

HTML5,CSS,Javascript,PHP,MySql

- Engineered an automated web-based system that alerts authorities when users upload images of water-related issues, leveraging Google API for location extraction and notifications.
- Achieved top performance in detecting and notifying authorities about water-related issues using user-submitted images, ensuring efficient alerts and location extraction.

Weather forecasting

May 2023

HTML5,CSS,Javascript

- Created a real-time application that shows current weather conditions, including temperature, humidity, wind speed, date, and time, based on city input. It also provides a 5-day weather forecast.
- Developed a real-time weather application by integrating a Weather API for dynamic and accurate weather data retrieval based on specified locations.

EDUCATION

Bachelor of Technology

2021 - 2025

GMR Institute of Technology (CGPA of 9.12)

Board of Intermediate Education

2019 - 2021

Apex Junior college(percentage of 95.2%)

Secondary School Education

2018 - 2019

Bhashyam High School (GPA of 9.8)

CERTIFICATIONS

Programming in python Certification | Core Java | Machine Learning with python Certification | Accenture Developer Job Simulation Certification | Introduction to Generative AI studio Certification

ACHIEVEMENTS

- * Achieved Merit Scholarship in B-Tech First Year
- * Second level certificate of Ramanujan talent test in school level
