CAREER OBJECTIVE

Aspiring web and software developer passionate about leveraging advanced technologies to address real-world challenges. Eager to apply and expand my skills through an internship, contributing to innovative projects and gaining hands-on experience in the field.

EDUCATION

Bachelor of Technology   2021 – 2025
GMR Institute of Technology, CGPA:9.12   *Rajam*
Board of Intermediate Education   2019 – 2021
Apex Junior college, Marks:952   *Vizianagaram*
Secondary School Education   2018 – 2019
Bhashyam High School, CGPA:9.8   *Vizianagaram*

PROJECTS

A Web Based System for Community Driven Water Issue Detection   May 2024
Web Development Project   *HTML5,CSS,Javascript,PHP,Mysql*
  • Engineered an automated web-based system that alerts authorities when users upload images of water-related issues, leveraging Google API for location extraction and notifications.

  • Achieved top performance in detecting and notifying authorities about water-related issues using user-submitted images, ensuring efficient alerts and location extraction.

Weather forecasting   May 2023
Front-end development Project   *HTML5,CSS,Javascript*
  • Created a real-time application that shows current weather conditions, including temperature, humidity, wind speed, date, and time, based on city input. It also provides a 5-day weather forecast.

  • Developed a real-time weather application by integrating a Weather API for dynamic and accurate weather data retrieval based on specified locations.

INTERNSHIPS

.Net with C-Sharp   July 2023 – Aug 2023
Schemax-Tech   *Vishakapatnam*
  • Completed an internship at SchemaxTech,gaining hands-on experience with developing window based applications using C-Sharp and beginner on ASP.NET

Bharat Intern   Dec 2023 – Jan 2024
Virtual Internship program at Bharat Intern in Full Stack Web Development
  • Developed full-stack web applications showcasing proficiency in both frontend and backend technologies, including database integration and user interface design.

  • Self-learned and proficient in completing tasks within specified deadlines, demonstrating proactive learning and task management skills.

  • Developed two projects, a Blog website and a Student registration system, utilizing React for frontend development, Node.js for backend implementation, and MongoDB for effective database management.

SKILLS

Programming Languages: C, java, python
Frontend Languages: HTML5,CSS,Javascript
Backend Languages: php,NodeJs
Web Frameworks: ReactJs,Flask,.Net with c-sharp
soft skills: Time Management,communication,Leadership,problem solving

CERTIFICATIONS

- Python certification in Coursera platform
- .Net with C-Sharp certificate
- Machine Learning with python:A practical Introduction in edx Platform
- Accenture Developer Job Simulation in Forage Platform
- Introduction to Generative AI studio in simplilearn platform

ACHIEVEMENTS

- Achieved Merit Scholarship in B-Tech First Year
- Second level certificate of Ramanujan talent test in school level
